PRESTIGE™

Vinyl Patio Door System

Enjoy a “hassle-free” patio door year after year.

Super Spacer® Reverse Dual Seal technology ensures you're getting the most advanced weather-seal available. Includes ComforTech™ DLA High performance Low-E Argon.

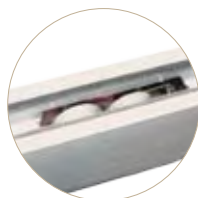

Our Patio Door is ENERGY STAR® Qualified

A Tight Seal Eliminates Noise and Leaks

Triple weatherstripping at side stiles and 3-point contact weatherstripping at meeting stiles improve insulation, virtually eliminating air infiltration.

Strong, multi-chamber profiles and 5 7/16" frame depth offer greater thermal efficiency and increased sound abatement.

Exclusive patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

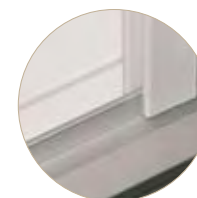

Extruded frame with fiberglass screen features stainless steel screws and patented adjustable spring-loaded suspension system in each corner, designed not to derail or jam.

Galvanized steel reinforced panels ensure rigidity and stable operation.

You'll Love our Vice-Versa™ feature!

The direction of opening can be changed from left to right or vice-versa simply by reversing the panels and re-snapping the exclusive wheel system.

Our anodized aluminum screen track is built into the sill and ensures that the screen stays aligned. Also features self-cleaning tracks for smooth reliable screen operation.

The vent lock adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out.

Our sill is reinforced with galvanized steel. Pair that with our patented water draining system, and it results in an efficient and durable base for our patio door.

Fixed and mobile panel rails meet and interlock perfectly, making removal from the outside virtually impossible. Lower sill design provides safer entry and exit.

2 and 3 panel doors
energy-smart glazing options available
mechanical frame and welded sash
multipoint locking system standard

Hardware Options

Our PRESTIGE™ Patio Door comes with multipoint mortised hardware available in White or Beige. Optional keylock available.

PRESTIGE™

Vinyl Patio Door System

PRESTIGE™ - The Door for All Seasons

PVC doors are built to perform in the toughest conditions. At Sugarcreek Industries, we test our doors against the most stringent industry standards for air and water infiltration, wind-load resistance, ease of operation, forced entry and much more.

This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

The Sound Barrier

Peace and quiet come naturally with these patio doors. You'll get the ultimate in thermal performance and sound abatement. Multi-chamber profiles, triple weatherstripping at side stiles and triple-contact weatherstripping at meeting rails virtually eliminate outside noise. You'll also enjoy peace of mind with our superior locking system that lets you sleep secure, knowing your doors will stay closed. And since PVC resists the effects of weather, our patio door is virtually maintenance-free - it will not rot, rust, pit or blister.

Available Options

- ComforTech™ TLA and TLK triple-glazed glass
- Tinted glass in bronze, gray or green
- Azurlite® glass
- Painted internal grid in flat or contoured
- Woodgrain contoured internal grid
